Our greenhouse frames, made of hot-dip galvanized steel, are renowned for their strength and durability. Designed and manufactured in-house, our frames are

We have built the largest solar park in Panama. The renewable energy market in Panama is constantly developing, growing at an annual rate of 9.2%, according

Traditional greenhouses rely on external fossil fuel derived energy sources to power lighting, heating and forced cooling. Specially designed BiPV solar glass

During the 2024 grow season, nine different plant species, including beans, leafy greens, tomatoes, and snow peas, saw growth yields increase by

Panama plans to house the first 100% clean agro-logistics park thanks to solar energy. This park is called AgroPark Panama, which is a free zone with 120 hectares of food production in

Solar greenhouses are mainly made of a transparent envelope and the effect of the direct and diffuse component of solar radiation impacts the internal plant well-being.

Energy Glass Solar(TM) Technology Dramatically Reducing Monthly Greenhouse Electric Costs "The Energy Glass Solar(TM) panels have demonstrated their

This article dives deep into the intricacies of SOLAR GLASS PROCESSING, exploring how it works, the innovations driving it, and its potential to revolutionize the solar energy industry.

This greenhouse features a top covered with hollow solar panels and walls covered with hollow glass, combining the aesthetic appeal of glass greenhouses with the thermal insulation properties of solar

Panama solar glass processing greenhouse

Glass greenhouses offer a solution. Glass greenhouses provide superior light transmission while creating controlled environments for optimal plant growth.

Our photovoltaic greenhouse technology allows us to adapt to each crop by considering needs such as ventilation, crop support, and the dimensions required for equipment access. We offer

Moved Permanently The document has moved here.

"The Energy Glass Solar(TM) panels have demonstrated their efficacy in maintaining optimal greenhouse conditions without compromising plant growth, development, or the pollination process.

Tech Solutions The appeal of glass: Choosing the right greenhouse glazing for light, durability and plant health Explore greenhouse glazing options,

Imagine growing tomatoes under a roof that simultaneously generates electricity - that's the magic of photovoltaic (PV) glass greenhouses. These structures act like Swiss Army knives for farmers,
